FILTRATION & WATER CONNECTIONS

2024
EDITION

WELCOME

Welcome to the new Waterline Products Catalogue for 2024. We would like to start by saying thank you to all our customers for their custom and support over the last year and welcome to all the new customers that have joined us in the past year.

Thanks in large part to the high levels of new customers we have had in 2023, within this 2024 catalogue you will see that we have been able to maintain much of our pricing at the same levels as last year.

Our range of products, from Reverse Osmosis and Water Filtrations Systems to John Guest fittings, PVC and ABS Pipe, to Hose Connectors, Metal and Valves as well as U Bolts and fixings remains largely unchanged with few new additions as well as the expansion of some of the current ranges to allow a better, more complete offering.

We continue to review and improve upon our stock lines and systems. Our substantial stock holding ensures that we can fulfil our customers' orders without delay. Along with constant updates and improvements to our websites, our online customers can benefit from an efficient and user-friendly online shopping experience.

Once again, we have made a significant investment in developing our steel bar manufacturing process and plant machinery. With the introducing of threaded studs and yellow finish passivate to our plating line

In 2024 we hope to continue to invest and grow enabling us to remain one of your most competitive supplier options.

As always we are available for advice and support for any queries that our customers have. We can be contacted via email, telephone or in person at our premises.

Roy Roddy

SECTION INDEX

OUR VAST RANGE OF PIPE, HOSE AND VALVES ARE SUITABLE FOR WATER AND LIQUID APPLICATIONS IN DOMESTIC SETTINGS AND INDUSTRY.

Our Brands	04	Brass Hose Connectors	87
Water Filtration	05	Polyethylene Barbed Valves	89
John Guest	16	Nylon Tank Connectors	89
White Fittings	26	Polyethylene Barbed Fittings	90
PVC Imperial	27	Black Hose Tails	91
PVC Metric	35	Hose Adaptors	92
CPVC	43	Nylon Barb Fittings	93
ABS	46	Slurry Type Couplings	95
Compression	54	URT Type Couplings	97
Gaskets, Glues, Cleaners	57	Polypropylene Camlock Couplings	99
Galvanised Malleable	59	Aluminium Camlock Couplings	100
Black Iron Malleable	64	Stainless Steel Camlock Couplings	101
Stainless Steel	66	IBC Connectors	102
Brass Threaded Fittings	69	Irrigation	103
Plumbing	72	Water Storage	112
Gauges	74	Clips, U Bolts & Starlocks	115
Valves & Metal Fittings	75	Technical Specification	132
Polypropylene Threaded Fittings	78	Connection Guides	139
Nylon Threaded Fittings	80	Measuring Guides	144
Hose	82	Pipe Thread Guide	146
Hose Clips	84	Terms & Conditions	147

OUR BRANDS

WATERLINE PRODUCTS IS MORE THAN JUST ONE BRAND. IT IS A CONSORTIUM OF DIFFERENT BRANDS WITH WATERLINE PRODUCTS AS THE FOREFRONT FOLLOWED BY RO-MAN, PURITY ON TAP AND THE U BOLT SHOP.

WWW.WATERLINEPRODUCTS.CO.UK

Waterline Products provide a full range of pipeline components. We supply a wide and varied range of pipe and hose fittings including PVCu, ABS, PP Compression, Galvanised Malleable Iron, Brassware, Stainless Steel, Metal Valves, Hose, Hose Couplings, Hose Clips, PP Barbed, PP Threaded, Camlock, Nylon and U Bolts.

WWW.RO-MAN.COM

RO-MAN specialise in high quality water filtration and reverse osmosis systems. Our systems are built in the UK using high quality components. We have an extensive range of systems suitable for many environments including domestic, dental, fish keeping and window cleaning. In addition to systems, we supply filters, membranes, component parts as well as John Guest, Heavy Metal and Nitrate Removal, Deionisation, Pumps, and Water Storage.

WWW.PURITYONTAP.COM

Purity on Tap specialise in high quality water filtration equipment designed for use with marine aquariums, fish keeping and drinking water. We have developed the most comprehensive range of water filtration systems including: Gemini, Metalex, Hi-Met, KP1, KP2, Hilux, SP Range, filters and membranes.

WWW.THEUBOLTSHOP.CO.UK

The U Bolt Shop are component manufacturers of U Bolts, component parts and accessories. Engineered using high tensile, British steel our U Bolts and accessories are ideal for industries such as civil, utility and mechanical engineering, construction and automotive industry.

Reverse Osmosis Systems

Standard Systems

Our standard systems are full sized units which provide better pre-filtration than basic systems and less chance of membrane fouling. The membrane will remove an average 97-99% of tap water contaminants. We only use high quality membranes made in the US.

The 3 Stage Standard System includes a self cleaning membrane, a 5 micron sediment pre-filter and a solid carbon block filter.

The 4 Stage Standard System includes a self cleaning membrane, a 5 micron sediment pre-filter, a solid carbon block filter and a granulated active carbon filter.

Description	Code	Price
3 Stage Systems		
50 GPD	RO-3ST-50GPD	69.30
75 GPD	RO-3ST-75GPD	71.82
100 GPD	RO-3ST-100GPD	75.60
150 GPD	RO-3ST-150GPD	83.16
4 Stage Standard Systems		
50 GPD	RO-4ST-50GPD	117.93
75 GPD	RO-4ST-75GPD	122.31
100 GPD	RO-4ST-100GPD	128.52
150 GPD	RO-4ST-150GPD	140.61

Professional 4 Stage Systems with DI Unit

Professional 4 Stage Systems contain a self cleaning membrane, 5 micron sediment pre-filter, solid carbon block filter and a DI cartridge. Professional systems have a large capacity DI which last 3 to 4 times longer than the inline type. The resin will last longer and is both environmentally friendly and convenient to change as the cartridge is refillable.

Description	Code	Price
50 GPD	RO-DI-PROF-50GPD	91.98
75 GPD	RO-DI-PROF-75GPD	94.50
100 GPD	RO-DI-PROF-100GPD	99.54
150 GPD	RO-DI-PROF-150GPD	109.62

Larger Systems - 200, 300, 450 GPD Systems

Our larger systems are full sized units designed to produce pure water at a high volume of output. These systems are ideal for applications including aquariums, hydroponics and window cleaners.

Larger systems contain a 5 micron sediment pre-filter, solid carbon block and a chlorplus carbon filter. The 200 GPD system comes with 2 x 100 GPD membranes; 300 GPD system comes with 3 x 100 GPD membranes and 450 GPD system comes with 3 x 150 GPD membranes.

Description	Code	Price
200 GPD	RO-200	220.50
300 GPD	RO-300	339.50
450 GPD	RO-450	277.20

Drinking Water Systems - 5 Stage, 6 Stage Systems

Domestic systems are complete filtration systems producing high quality, pure water for drinking. These systems will remove contaminants including rust, chlorine, pesticides, lead, oestrogen and fluoride.

Our 5 Stage System includes a 5 micron sediment filter, granulated active carbon filter, a solid carbon block filter, a 50 GPD membrane as well as an inline taste and odour filter. Our 6 Stage System includes an additional stage with an inline remineralising filter.

Description	Code	Price
5 Stage Domestic	RO-DOM-5	195.44
6 Stage Domestic	RO-DOM-6	212.94

Whole House Filtration Systems

Our Whole House Filtration System is a complete system to filter all the water used within your home. Installed on the water input to the home, this system will treat water as soon as it enters the plumbing system. The system includes a 5 Micron Sediment filter and 2 big blue granulated active carbon filters.

Description	Code	Price
Small	WHOLE-HOUSE-SM	226.19
Medium	WHOLE-HOUSE-MD	368.16
Large	WHOLE-HOUSE-LRG	595.22

Fresh 3 System

Our Fresh 3 System is a 3 pod system designed to produce high quality, filtered water for the home. This will remove chlorine, chloramine, heavy metals and is an ideal, on demand system for domestic settings. This system includes a 5 micron sediment filter, CBR2 filter and chlorplus carbon filter.

Description	Code	Price
Fresh 3 System	SY-FRESH	126.78

Dental System

Our Dental Reverse Osmosis System has been designed with the dental industry in mind. This system is suitable for both smaller practices as well as large multi-chair practices and will produce an ample supply of pure water for autoclaves, drills and other equipment to meet the requirements of any practice.

This system include a 5 micron sediment filter, a solid carbon block filter, DI resin cartridge an a self cleaning membrane. This system has the option of an additional pump.

Description	Code	Price
No-Pump 1 - 3 Chairs	RO-DENT-NONPUMP	340.20
Pumped 4+ Chairs	RO-DENT-PUMP	408.24

Tropical Fish Water Purification

Our Tropical Fish Water Purification System has been used by customers since its original design in 1990 and we have been making improvements and updates ever since. This system has been developed with mixed-bed resins to cater for all freshwater species where contaminant levels would defeat a normal purifier. All our METALEX range will lower levels of free chlorine, chloramine, copper, lead, iron and both dissolved aluminium and aluminium floc.

The MM20 system comes with a 1 micron pre-filter sediment cartridge and a Metalex cartridge. The MM80 also includes a 'Short Travel' Carbon cartridge and the MM80C comes with a Chlornomore for optimal chlorine removal.

Capacity	Code	Price
Metalex Systems		
2000 Gallons	MM20	78.75
56000 Gallons	MM80	120.75
56000 Gallons	MM80+C	125.56

Koi Fish Water Purification

This range of Koi pond purifiers incorporate advanced features, have been specifically designed for Koi and thoroughly tested for suitability. Our Koi Fish systems include a Chlornomore Purifier Cartridge as standard. The effectiveness of the Chornomore Purifier Cartridge for Chloramine removal is recognised throughout the Industry and the unique "filter balance" technology results in system performance which far out-strips other marques.

The KP range is a popular system for both ease-of-use and contaminant removal. The PROTEX has similiar functions but with slightly better contaminate removal characteristics than the KP1. The HILUX system was designed specifically for Koi keepers and provides a spectrum of contaminant removal most other purifiers do not reach. The HI-MET system is based on the the HILUX but with enhanced heavy metal removal.

Capacity	Code	Price
KP Sytems		
20,000 Gallons	KP1	83.56
40,000 Gallons	KP2	135.63
PROTEX System		
30,000 Gallons	Protex	121.63
HILUX System		
220,000 Gallons	HILUX+C	193.81
HIMET System		
220,000 Gallons	HIMET+C	284.81

Marine Water Purification

With our extensive experience and vast knowledge of the reverse osmosis industry, we have ensured our pre-filtration is correctly matched to the products of the membrane and we find our twin pre-filter systems can easily outperform triple pre-filter units. Our SP and ULTRO Systems are a real step forward in efficiency and value. This range is ideal for Discus, Marine and water softening applications.

These systems use reverse osmosis to provide high quality water which is up to 99% pure. The SP is a 3 stage system consisting of a 5 micron sediment filter, a high grade carbon filter and a "Short-leaf" thin film composite membrane. The ULTRO System takes the purity to the next level by including high quality deionising resin.

Capacity	Code	Price
SP System		
35 GPD	SP35	89.69
50 GPD	SP50	89.69
75 GPD	SP75	121.19
100 GPD	SP100	157.94
ULTRO System		
35 GPD	ULTRO35	108.94
50 GPD	ULTRO50	128.19
75 GPD	ULTRO75	168.44
100 GPD	ULTRO100	184.19

Test Meters

Our handheld TDS testers, in-line monitors, controllers and demonstration devices for reverse osmosis (RO) water filters and water purification systems are high quality and superior in construction and performance with an economical price. HM Digital Inc. are the only manufacturer of economical in-line dual TDS meters which measure total dissolved solids (TDS) levels of feed and product water lines simultaneously, an effective way to compare rejection rates and gauge reverse osmosis membrane, water filter and water purification performance.

TDS Meters

Inline monitors are convenient devices to monitor the performance of filters and reverse osmosis systems. The dual TDS monitors measure the tap water coming in vs. the purified water going out of your system at any time. The DM2 has has a auto-off function to conserve battery power.

Handheld meters are ideal for water professionals or health-conscious consumers. The TDS-EZ is a economy model that is ideal for end-users. The 3TM is more suited for commercial use. The COM-100 measures electrical conductivity (EC) total dissolved solids (TDS) and temperature.

Description	Code	Price
Inline		
DM1: Inline Dual TDS Monitor	DM1	28.00
DM2: Industrial Dual TDS Monitor	DM2	21.97
Hand Held		
TDS-EZ: Water Quality Tester	TDS-EZ	12.16
3TM: Built in /Thermometer and Case	TDS-3TM	13.22
COM100: Waterproof EC/TDS/Temp Combo Meter	COM-100	37.00

Batteries for HM Digital TDS Meters and PH Meters

Description	Code	Price
Batteries	BAT-375A	0.57

PH Meter

The PH-200 measures both pH and temperature. It is ideal for all pH testing with a temperature range of 0-80°C and a pH range of 0-14.

Description	Code	Price
PH-200 Waterproof pH Meter	PH-200	36.86

Redox Meter

This Redox Meter measures both oxidation reduction potential (redox) and temperature. It can read ORP from -999 to +1000 mV.

Description	Code	Price
ORP200: Waterproof ORP Meter	OPR-200	35.00

TDS Controllers

Controllers manage the output performance of high volume commercial water purification systems.

The PS100 monitors and control the TDS level for high output commercial systems. An alarm will sound if the TDS level rises above the user-set level. The PS200 monitors two water lines. The PS202 monitors two water line and its dual display allows you to compare both measurements instantly

Description	Code	Price
PS100: Panel Mount Controller	PS100	94.50
PS200: Dual Controller	PS200	113.40
PS202: Dual Display TDS Controller	PS202	133.88

Filter Sets & Cartridges

Replacement Filter Sets

	Description	Code	Price
3 Stage Standard Filter Set			
	<p>This set is for the replacement of the pre-filters in 3 Stage Reverse Osmosis System.</p> <p>The set includes: 1 x 5 Micron Sediment and 1 x Carbon Block.</p>	3 Stage	FIL-SET-3S4S-3SS 7.88
4 Stage Standard Filter Set			
	<p>This set is for the replacement of the pre-filters in 4 Stage Standard Reverse Osmosis System.</p> <p>The set includes: 1 x 5 Micron Sediment, 1 x Carbon Block and 1 x GAC Carbon.</p>	4 Stage Standard	FIL-SET-3S4S-4SS 13.39
Professional 4 Stage Filter Set			
	<p>This set is for the replacement of the pre-filters in Professional 4 Stage Reverse Osmosis Systems.</p> <p>The set includes: 1 x 5 Micron Sediment, 1 x Carbon Block and 1000 ml Resin.</p>	4 Stage Professional	FIL-SET-4PRO 15.91
Large Systems - 200, 300 & 450 GPD Filter Set			
	<p>This set is for the replacement of the pre-filters in 200, 300 & 450 GPD systems.</p> <p>The set includes: 1 x 5 Micron Sediment, 1 x Carbon Block and 1 x Chloramine Removal Filter.</p>	200, 300 & 450 GPD	FIL-SET-LARGE 22.31
Drinking Water - 5 Stage & 6 Stage System Filter Set			
	<p>This set is for the replacement of the pre-filters in our Drinking Water Systems.</p> <p>The 5 Stage filter set includes: 1 x 5 Micron Sediment, 1 x Carbon Block, 1 x GAC Carbon, 1 x Inline Taste and Odour Removing Carbon. The 6 Stage filter set includes the 5 Stage filters with an additional Inline Remineralising Carbon</p>	5 Stage	FIL-SET-DOM-5S 23.26
		6 Stage	FIL-SET-DOM-6S 33.86
Whole House Filter Set			
	<p>This set is for the replacement of the pre-filters in our Whole House Filtration System.</p> <p>Each filterset includes 4 x 5 Micron Sediment. The Small household system includes 6 litres of Granulated Active Carbon; Medium household includes 11 Litres and Large household includes 25 Litres.</p>	Small: 1 - 3 Person	WH-SMALL 68.25
		Medium: 4 - 6 Person	WH-MEDIUM 128.10
		Large: 7+ Person	WH-LARGE 246.75
Fresh 3 Filter Set			
	<p>This set is for the replacement of the pre-filters in Fresh 3 System.</p> <p>The set includes: 1 x 5 Micron Sediment, 1 x CBR2 Carbon and 1 x Chlorplus Carbon.</p>	Fresh 3 Filter Set	FIL-SET-FRESH3 35.07
4040 Filter Set			
	<p>This set is for the replacement of the prefilters in 4040 Reverse Osmosis Systems.</p> <p>The 4040 Filter Set includes: 1 x 20" 5 Micron Sediment and 1 x 20" Carbon Block. The High Volume Filter Set includes: 1 x 20" 5 Micron Sediment and 1 x 20" Chlorplus Carbon.</p>	4040 Filter Set	FIL-SET-4040-ST 18.48
		4040 High Volume	FIL-SET-4040-HV 41.58

Hose

Tricoflex Hose Per Coil

Tricoflex Structure

- 1 Multi-layer construction ensures superb kink resistance.
- 2 Knitted reinforcement combines pressure resistance with excellent handling characteristics.
- 3 Smooth inner layer ensure optimum water flow and restricts algae growth.
- 4 Yellow outer layer is both U.V. and abrasion resistant.

Working Pressure:

1/2" 5/8" 3/4" = 10 Bar
1" 1 1/4" 1 1/2" 2" = 8 Bar

Working Temperature:

-15°C to +60°C

Medium Duty Suction & Delivery Hose Per Metre

Reinforcement:

Shock Resistant PVC Spiral

Application:

For medium duty suction and delivery of water, salt water, light chemicals, liquids in agricultural industrial application and construction.

Working Pressure:

20 mm 25 mm = 22 Bar
32 mm = 20 Bar
38 mm = 18 Bar
51 mm = 13 Bar
63 mm 76 mm = 12 Bar
89 mm = 11 Bar
102 mm 127 mm = 10 Bar
152 mm = 9 Bar

Medium Duty Layflat Hose Per Metre

Tube:
Flexible PVC Lining

Reinforcement:
High Tensile Synthetic Textile

Cover:
PVC outer, light chemicals and weather resistant

Application:
For standard duty discharge of water, light chemicals and other liquids in agriculture and industry.

Working Temperature:
-5°C to +60°C

PVC Braided Tubing Per Metre

Tube:
Transparent plasticized PVC; low toxic odourless PVC

Reinforcement:
High tensile polyester fibres

Cover:
Abrasion, ozone and weather resistant transparent PVC

Application:
Light duty hose for multipurpose use, general water discharges and low pressure airlines. Suitable for food and water.

Working Temperature:
-15°C to +60°C

Black Bio Flexible Fuel Hose Per Metre

Tube:
Flexible smooth oil resistant PVC/NBR compound

Reinforcement:
Synthetic textile

Cover:
Black weather and ozone resistant

Application:
For the transfer of diesel/fuels/water/air in more demanding service environments

Working Temperature:
-15°C to +60°C

3" & 4" Metal Solenoid Valves

The BERMAD 400 Series cast iron valves have been designed for the control of all types of irrigation and waterworks systems

Specifications:

Inlet / Outlet	3" Female BSP
Max Working Pressure	10 Atm. - 145 psi
Max Working Temperature	80°C
Body & cover material	Polyester coated cast iron
Diaphragm	Nylon fabric, reinforced NR
Diaphragm retainer	Stainless steel
Spring	Stainless steel
Voltage	24V AC
Weight	5.8 kg

Code	Description	Price
32-60-24-AC	3" Solenoid Valve	255.53

Sand Filters

Sand Filters

These series 4 sand filters have been used successfully where deep and fine filtration of algae contaminated water is required especially with reservoirs and open tanks.

The sand filters are supplied with a 0.25mm oven dried, electrostatic epoxy coating so as to be corrosion resistant.

Specialist Engineered Products

In our manufacturing facility we have the capacity to manufacture a wide range of bolts and components. Included within this catalogue is a sample of our standard products but by no means the range of our capability.

These are manufactured in various sizes from M8 to M16 and materials used are both stainless and carbon steel.

Carbon steel products are electro-plated in house as standard unless otherwise requested.

All products are batch tested to ensure pull, torque, sheer, material hardness and plating quality are maintained to a high standard. In-house records for quality control are available on request.

Stainless Steel Products

Stainless Steel products are custom made to order with a quick completion.

Bespoke Orders

We can manufacture products to our customers specifications such as Flat Bed U Bolts, Anti-Vibration U Bolts, Off-Set Bolts or a different size bolt not currently listed in our catalogue.

Specialist Engineered Trailer Products

In our manufacturing facility we have expanded to include a range of weldable trailer products manufactured in various sizes from M10 to M16.

The products and size range included within this catalogue is a sample of our standard products and intended to be a guide only. This is by no means the range of our capability.

All products are batch tested to ensure pull, torque, sheer, material hardness and plating quality are maintained to a high standard. In-house records for quality control are available on request.

Bespoke Orders

We can manufacture products to our customers specifications including different size specifications as well as volume orders.

Weld on U

Code	Size	Price
Weld-on-U-M10-50-60	50mm Width x 60mm Length - Pk of 2	4.50
Weld-on-U-M12-50-60	50mm Width x 60mm Length - Pk of 2	5.00
Weld-on-U-M16-85-80	85mm Width x 80mm Length - Pk of 2	7.00

Weld on Tie Down

Code	Size	Price
Weld-Tie-Down-M10-50-60	50mm Width x 60mm Length - Pk of 2	4.50
Weld-Tie-Down-M12-50-60	50mm Width x 60mm Length - Pk of 2	5.00
Weld-Tie-Down-M16-85-80	85mm Width x 80mm Length - Pk of 2	7.00

Weld on Hook

Code	Size	Price
Weld-on-Hook-M10-60-60	60mm Width x 60mm Length - Pk of 2	4.50
Weld-on-Hook-M12-60-60	60mm Width x 60mm Length - Pk of 2	5.00
Weld-on-Hook-M16-85-85	85mm Width x 85mm Length - Pk of 2	7.00

COMPRESSION FITTINGS

General Specifications

Rated Pressure at 20 deg C

Compression fittings transition compression fittings, underclamp tapping saddle and ball valves: PN 16 bar.

Maximum Temperature

Up to 45 deg C in the limits dictated by the use of polyethylene pipes.

Reference Standards

Complying with ISO, UNI, DIN, NF

Threads to UNI-ISO 7/1, Din 2999, BS21, EN 10226-1

Flanges to UNI 2223, DIN 8063, UNI EN 1092-1, UNI 2278

Sanitary Specifications

Comply with standards for conveying drinking water as per current regulations in Italy and in many other countries.

D.M. n. 174 dated 06/04/2004

Materials - Compression fitting

Body: Polypropylene (PP-B) high stability copolymer with UV protection.

Seal: NBR and EPDM. Bush ring: polypropylene, high stability copolymer with UV protection (PP-B). Clamping ring: acetalic resin (POM).

Nut: polypropylene high stability copolymer with UV protection (PP-B).

JOHN GUEST BLACK ACETAL

Material

Body – acetal copolymer or polypropylene

'O' rings – nitrile rubber or EPDM

Collets – acetal copolymer or polypropylene with stainless steel teeth

Operating Temperature

20 degrees C at 12 bar pressure

65 degrees C at 6 bar pressure

82 – 105 degrees C at 3 bar pressure.

Fittings and pipes can withstand 114 degrees C intermittently for short periods in case of thermostat malfunctions

Reference Standards

European Regulation P1935/2004

ISO 9001; ISO 14001; NSF 14, 51, 61; KM 39767; ESR 1931

Operating Pressure

5/32" – 5/16" (4mm-8mm): 16 bar pressure at – 20 degrees C; 16 bar at 1 degree C; 16 bar pressure at 20 degrees C; 10 bar pressure 65 degrees C

3/8" – 1/2" (10mm – 22mm): 10 bar pressure at – 20 degrees C; 10 bar at 1 degree C; 10 bar pressure at 20 degrees C;

7 bar pressure at 65 degrees C

MALLEABLE GALVANISED IRON

Material

Surface treatment: Galvanised
Anti Rust lubricating oil to prevent temporary rusting

Temperature

Maximum temperature: 300 degrees C
Minimum temperature: - 20 degrees C (short term – 50 degrees C)

Reference Standards

Conforms to ISO 49,
Male Thread: EN10226, ISO 7/1
Female Thread: UNI EN ISO 228-1
Construction: DIN EN 10242, ISO 49

Pressure

Maximum working pressure: 25 bar at temperatures below 120 degrees C
20 bar pressure at temperatures between 120 to 300 degrees C

STAINLESS STEEL 314

General Technical Specifications

Density – 8.0/cm³
Thermal Expansion – 15.9 x 10⁻⁶/K
Modulus of Elasticity – 193 GPA
Thermal Conductivity - 16.3W/m.K
Electrical Resistivity – 0.074 x 10⁻⁶ Ω .m 0.074 x10⁻⁶ Ω .m

Temperature

Melting Point – 1370 - 1400 degrees C
Intermittent Service Temperature – 870 degrees C
Continuous Service Temperature – 925 degrees C

Reference Standards

EN 10088-3:2005

Pressure

Proof Stress – 200 Min MPa
Tensile Strength – 500 to 700 Mpa

STARLOCK PUSH-ON FITTINGS

Reference Standards

Complying with: EN 9100:2018 (AS9100D); IATF 16949:2016; ISO 9001:2015; ISO 14001:2015; OHSAS 18001:2007

UNIDELTA PP COMPRESSION FITTINGS

Unidelta PP Compression fittings are designed for connecting polyethylene pipes with an outside diameter from 16 to 110mm (200mm for clamp saddles). These fittings ensure a perfect hydraulic seal in the construction of pressurised distribution systems. They are fully compatible with all PELD, PEHD, PE40, PE80 and PE100 pipes. Normally they are used to convey drinking water and fluids at pressures up to 16 bar for generic application. The material used makes these fittings resistant to etching by numerous chemical substances and UV-rays.

The Unidelta Universal Fitting can be used to connect systems using PE metric piping with existing pipes made of any material, with external diameters of 15-34mm.

How to install Unidelta PP Compression Fittings

1. Cut the pipe squarely using pipe cutting tools or circular or band saw. It is advisable to use a guide box to ensure a square cut.
2. Eliminate any burrs and bevel the end of the pipe to facilitate easy assembly and to prevent damage to the fitting gasket. The outer surface of the pipe must be free from imperfections or indentations where the body of the fitting makes contact with the pipe.
3. Unscrew the blue nut and put it onto pipe followed by the white clamping ring. Make sure the clamping ring is in the correct position, with the largest diameter facing the fitting.
4. Press the pipe axially into the fitting, past the gasket, until it touches the internal register inside the fitting body.
5. Tighten the ring nut by hand and then use the torque wrench provided. The ring nut must be tight, but it does not need to reach the end of the fitting body.

Advantages of Unidelta PP Compression Fittings

- It is faster to install
- It is easier to install, even in difficult working conditions
- 100% safety that pipe has reached internal fitting stop as it is possible to see it
- The best hydraulic seal resulting from the usage of the o-ring typical of the Unidelta compression fitting that is safely pushed in its right position
- The best mechanical seal resulting from the peculiar design and the mechanical pushing system of the fitting internal rings that allow a perfect grip on the pipe in whichever position.

CAMLOCK FITTINGS

Camlock Couplings are the most cost effective and widely used coupling in the world due to the variety of applications in which it can be used. Camlocks can be used in industrial, agriculture and domestic settings for a number of uses. Camlocks are suitable for piping, tubing, hose and tanks carrying liquids and powders such as fuels, foodstuffs, pumps, adhesives, pharmaceuticals, chemicals and many more.

How to install Camlock Couplings

Camlock couplings have a simple easy-to-use design. The coupling consists of an adapter, coupler and assembly handle, finger rings, pins and safety clips.

To connect the coupling firstly extend the arms and place the adapter into the coupler. Once the adapter and coupler have been placed together press the handles down with normal pressure. Under normal conditions safety locks are not needed. The Camlock adaptor and coupler are designed to minimize instability in liquids and gases as well as abrasion from dry products.

Precautionary Points to Consider

- Do not exceed maximum pressure limit when in use
- Only use application liquids when using camlock couplings
- To prevent sealing material from wear or leakage do not exceed temperature range
- Do not mix with powder or sand to prevent leakage or blocking
- Ensure the hose has no cracks to prevent dropping or leakage
- When installing camlock do not exceed maximum tightening to prevent damage
- Do not beat, bend or stretch the camlock coupling to prevent damage
- Use clean filtered fluid
- Do not remove coupling

JOHN GUEST

John Guest is a world leading manufacturer of push-fit fittings, tubing and other fluid control products. John Guest fittings can be used in a variety of industries including plumbing, drinks vending and dispensing, automotive, pneumatics, compressed air, telecommunications and water purification.

How to install John Guest Fittings

To make a connection the tube is simply pushed in by hand. The John Guest collet locking system holds the tube firmly in place without deforming it or restricting flow.

1. Cut the tube square, remove burrs and sharp edges
2. Push the tube into the fitting to the tube stop
3. Pull on the tube to check it is secure.
4. Test the system before use.
5. To disconnect, push the collet square against the fitting. With the collet held in this position the tube can be removed.
6. Ensure the system is depressurised before disconnecting.

Advantages of John Guest Fittings

Push-fit technology
Quick disconnection without the need for tools
Food quality and suitable for portable liquids and pure water applications

Not suitable for compressed air and vacuum applications.

ORIGINAL GEKA QUICK COUPLINGS

GEKA® Hose fittings are renowned to be the best type hose coupling. They can be used for commercial, agriculture and domestic purposes. GEKA fittings work by pushing two fittings together and twisting to lock together tight, with a seal to prevent any leaks or water waste.

GEKA® plus quick couplers connect water hoses from G 3/8" up to G 1 1/2". Threaded items are available in all thread sizes from 1/4 (internal and external thread) up to 1 1/2".

How to install GEKA Hose Fittings

GEKA® Hose Fittings use a universal connection enabling connections to a massive range of accessories.

1. To combine two claw lock connectors, push the rubber seals of the couplings together with the claws pointing in opposite directions.
2. Twist the couplings in opposite directions so that the claws are now touching.

The connectors brass exterior will prevent rust which provides superior durability and protection for the fitting.

Points to consider

- GEKA® plus gives more than 100% higher pressure range with safety reserve in comparison to standard claw couplings.
- Operating Pressure up to 40 bar with NBR shaped sealing ring 300C or 300D; up to 30 bar with EPDM or FKM shaped sealing ring 300EPDM or 300V.
- Burst pressure up to 80 bar with NBR shaped sealing ring 300C or 300D; up to 60 bar with EPDM or FKM shaped sealing ring 300EPDM or 300V.
- GEKA® quick couplings can be used in certain pressure ranges only and can achieve up to 80 bar.
- GEKA® plus has a temperature range from - 40 degrees C to 100 degrees C when used with NBR shaped sealing ring 300C or 300D; - 50 degrees C to 150 degrees C when used with EPDM shaped sealing ring 300 EPDM; - 25 degrees C to 200 degrees C when used with FKM (Fluororubber) shaped sealing ring 300V.

PVCU SOLVENT CEMENT FITTINGS

PVC-U Solvent Cement is used for filling gaps. The cement works by softening the inside of the fitting and the outside of the pipe to form a joint chemically.

How to use PVC-U Solvent Cement

1. Cut the pipe end square
2. Remove burrs and clean swarf. A chamfer must be filed approximately 3mm x 45° to prevent the layer of cement being scraped away as the pipe is pushed into the fitting.
3. Use a pen to mark the pipe at the distance which will penetrate the socket to the stop.
4. Thoroughly clean the pipe and fitting surfaces with MEK cleaner on a clean cloth.
5. Stir the PVC-u cement thoroughly.
6. Use a clean brush approximately half as wide as the pipe to be jointed. Apply cement to the pipe and fittings using longitudinal strokes coating the pipe thicker than the fitting. The prepared areas should be completely covered with cement.
7. Apply the cement quickly to enable assemble without excessive force being necessary.
8. Immediate after apply cement push pipe fully into the fitting without rotating. Hold the pipe and fitting for up to a minute to ensure fitting does not slide off the pipe. If working in cold conditions ensure the joints are free from frost and moisture and allowing extra curing time.
9. Wipe off excess cement from both sides of the joint using a clean cloth.
10. Replace lids onto tins and clean brush with MEK cleaner.

Precautionary Points to Consideration

-
- The jointing area must be well ventilated
- Wear gloves when applying cement and cleaner
- Always use clean brushes
- Ensure cement is used prior to its expiry date
- Always use clean lint-free cloth or absorbent paper
- Never dilute PVC-u solvent cement
- Do not allow a naked flame or smoking in the jointing area
- Always replace lids on tins when not in use
- Ensure jointing surfaces are dry in wet weather

The OD or Outside Diameter is the measurement across the end of the pipe. This table compares the actual pipe outside diameter to the nominal sizing in metric or imperial.

The easiest way to measure piping is by directly measuring across the end of the pipe at the widest point. Calipers can be useful especially when the pipe end is uneven or inaccessible.

- 1 SCOPE**
- a) In these terms and conditions:-
 i "The Company" shall mean Waterline Products.
 ii "the Purchaser" shall mean the company, person or body with whom the Company contracts for the supply of goods;
 iii "goods" shall mean the products to be supplied by the Company to the Purchaser in accordance with these terms and conditions and/or as otherwise agreed in writing between the Company and the Purchaser;
- b) The supply or provision of any goods by the Company to the Purchaser shall be subject to these terms and conditions. Any quotation given or request or order for the supply of goods accepted by the Company shall be subject thereto and the placing with the Company of a request or order for the supply of goods shall be deemed to incorporate these terms and conditions which shall apply to the exclusion of any other terms and conditions wherever referred to or contained and howsoever brought to the notice of the Company.
- c) No variation of these terms and conditions shall apply unless confirmed in writing by or on behalf of an authorised representative of the Company.
- d) Quotations issued by the Company for the supply of goods will be valid for a period of 30 days from the date of issue unless specifically stated otherwise in writing.
- e) These terms and conditions (as modified where applicable in accordance with condition c) above) together with the terms and other matters contained in the Company's invoice and/or quotation and/or acceptance of order constitute the whole agreement between the parties and supersede any prior promises, representations, undertakings or implications whether written or oral.

2 ORDERS

Orders accepted by the Company may not be cancelled under any circumstances without the prior written agreement of the Company.

3 PRICING

Unless otherwise provided in writing

- a) The Price of goods supplied shall be those ruling at date of despatch or if pursuant to a valid quotation the Price stated in the quotation.
 b) The Price is exclusive of Valued Added Tax or any other tax duty tariff or charge arising in the United Kingdom.
 c) All Prices are ex-warehouse and are thus exclusive of delivery and insurance charges save that the Company shall deliver free of charge on orders of a minimum value of £50 excluding VAT .
 d) Orders having a value of less than £50 excluding VAT shall, in addition to the cost of delivery, be subject to a minimum additional handling charge of £5 in respect of UK mainland deliveries and £20 for other destinations or, at it's discretion, whatever handling charge the Company may consider appropriate.

4 DELIVERY

The Company will use reasonable endeavours to comply with any date or dates for delivery of the goods but unless expressly provided in writing such date or dates constitute only statements of expectation and shall not be binding. Time of delivery shall not be of the essence. Failure to deliver on an estimated date for delivery shall not constitute a breach of the Contract and the Purchaser shall not be entitled to treat the contract as repudiated or to rescind it or any related contract in whole or in part or claim compensation for such failure for any consequential loss or damage however resulting there from.

When expedited delivery is agreed to by the Company, the Purchaser shall reimburse the Company for all overtime and other additional costs incurred by the Company. Delivery will be at such location as is agreed or if none is agreed at such location as the Company specifies. The Company reserves the right where appropriate to make delivery of goods ordered by instalments. Where postponement of delivery is agreed by the Company or occasioned by the Purchaser, the Purchaser shall pay all costs and expenses (including a charge for storage) occasioned thereby and the goods shall be held at the Purchaser's risk as from the date of postponement.

Delivery shall be deemed to have been effected when the goods are handed over to the Purchaser or an agent of the Purchaser appearing to have authority to receive them or as shall be agreed in writing.

5 CANCELLATIONS AND REFUNDS

We want you to be happy with goods purchased from Waterline Products. You have a right to cancel your order from the moment it is placed until this is dispatched.

You have a right to return your order for a refund, under certain conditions, up to 30 days of receiving the goods and notifying the business of the request to return the goods.

Returns Eligibility: To be eligible for a full refund all items must be returned in their original condition, unused, unaltered, all original packaging unopened, any tags intact and with no damage or signs of use.

Returns and Restocking Fee: At our discretion we reserve the right to implement a fee of 25% of the items purchase price to any eligible returns. Any goods returned used, with packaging opened, with signs of use or damage may incur this fee to cover the loss as well as cost of inspecting, repackaging and restocking the item. Special order, non stock items and bespoke manufactured goods are not eligible for return or refund.

Return Shipping: Customers are responsible for the cost of the return shipping unless the return is due to an error on our part or a defective product. We recommend using a trackable shipping method for returns.

Customer requesting a refund must notify us in writing either by (i) writing to Waterline Products or (ii) emailing; info@waterlineproducts.co.uk. When returning the goods please enclose the original delivery note that came with the goods and state the reason for the return.

This does not affect your rights in respect of damaged or faulty goods.

Following your return we will provide a refund for the price you paid for the goods against your original credit/debit card details. We reserve the right to recover from this amount the cost of recovering the goods from you or the cost of you returning the goods to us if they are sent at our expense.

6 TECHNICAL ADVICE

Although not qualified so to do the Company may at the request of the Customer (without being under any obligation to do so) furnish technical advice or assistance with reference to the use, repair or installation of any Goods sold by it but the same is furnished or given on the express understanding that is accepted as an expression of opinion in respect of which the company and its staff have no specific relevant expertise or qualification and is therefore used or heeded at the Customer's risk and the Company shall not be liable for any loss or damage or any claims of whatsoever nature arising directly or indirectly out of the Customer's use or application of such advice or assistance.

7 PAYMENT

Subject to the Price together with any delivery storage or other charges shall be payable net cash in Sterling and without set-off, deduction or abatement not later than thirty days beyond the end of the month of invoice whether or not the goods have been delivered to the Purchaser. Payment shall be made only to the Company at its nominated office or directly to the Company's bank account and save to the Company's Solicitors when instructed, to no other person whether or not an employee or agent of the Company or to any other place.

The Company reserves the right to require payment of the Price and any delivery storage and other charges upon delivery of pro-forma invoice before making delivery of the goods to the Purchaser.

In the event that any goods are delivered at the Purchaser's request by instalments then each instalment will be the subject of a separate contract and these Conditions shall apply to each contract mutatis mutandis. The Company shall be entitled to request payment for any instalment on the goods so delivered and failure to pay in full within the relevant period shall entitle the Company to suspend deliveries of the goods pending payment without prejudice to any other remedy available to the Company.

The Company reserves the right to charge interest on all overdue accounts at the rate of 4% for each month or part month during which such account remains outstanding whether before or after judgement, interest being compounded with monthly rests. In addition, the Company reserves the right to recover all costs of collection arising in respect of overdue accounts.

Time for payment is of the essence of the contract.

8 TITLE & RISK

The risk in respect of all goods supplied shall pass to the Purchaser upon delivery or, if the Purchaser wrongfully fails to take delivery of the goods, the time when the Company has tendered delivery of the goods.

The Company shall have no liability whatsoever for or in connection with any damage to or loss of the goods in transit and it is for the Purchaser to make such arrangements for insurance, if any, as it may deem appropriate.

Whilst risk in the goods shall pass on delivery, legal and beneficial ownership of the goods shall remain with the Company until such time as the Company has received payment in full by way of cleared funds in respect of all sums owing by the Purchaser to the Company whether under the Contract or otherwise.

Notwithstanding the Customer is authorised to sell the Goods in the ordinary course of business as agent or on the account of the Company and to pass good title in the Goods to its customers and convert or incorporate the Goods into other goods or materials.

So long as the property in the goods remains vested in the Company, the Company shall have the right, without prejudice to the obligation of the Purchaser to purchase the goods and to pay the Price, to take repossession of the goods and for that purpose to go upon any premises occupied by the Purchaser.

The Company may maintain an action for the Price of the goods notwithstanding that property in the goods may not have passed to the Purchaser

9 LIABILITY

Save as aforesaid (and save in respect of death or personal injury resulting from the negligence of the Company its servants or agents) the Company shall not be liable for any claim or claims for direct or indirect consequential or incidental injury loss or damage made by the Purchaser against the Company (whether in contract or in tort including negligence on the part of the Company its servants or agents) arising out of or in connection with any defects in the goods or any act omission neglect or default (whether or not the same constitutes a fundamental breach of contract or breach of a fundamental term thereof) of the Company its servants or agents in the performance of the contract.

Without prejudice to the generality of the foregoing, nothing herein contained shall operate or restrict liability for breach of any obligation arising from the Sale of Goods Act 1979 and/or the Supply of Goods and Services Act 1982, as against the Purchaser if it is dealing as a consumer as defined by Section 12 of the Unfair Contract Terms 1977.

Subject only to the provisions of these conditions no statement undertaking warranty or condition express or implied by law trade custom or otherwise shall apply to the contract.

The Purchaser shall keep the Company fully indemnified against all actions, claims or demands by third parties against the Company howsoever arising directly or indirectly in respect of or in connection with the supply of the goods.

Without prejudice to the foregoing, the Company shall in no circumstances be liable for any loss damage costs or expenses which exceed in the aggregate the Price of the goods.

Apart from the guarantee given under clause 5 above the Goods are not guaranteed or warranted however and no representation or warranty expressed or implied is given as to the suitability or fitness of the Goods or any of them for any particular purpose so that in agreeing to purchase them the Customer will be taken to have satisfied itself/himself as to their suitability for any purpose for which they are intended to be used.

All warranties, conditions and other terms implied by statute or common law (save for the conditions implied by section 12 of the Sale of Goods Act 1979) are, to the fullest extent permitted by law, excluded

10 APPLICABLE LAW

This contract will be governed by and in accordance with the laws of Northern Ireland and the parties submit to the non-exclusive jurisdiction of the Courts.
